Special Event Permit Application

Pomona City Code Sec. 24-3 provides that a completed Special Event Permit application, including all required documents such as proof of insurance, must be filed with the Community Services Department a minimum of **30 days prior** to the date of the event to allow for processing. Special Event Permits are required for events occurring on public property, either in part or whole. Events occurring on private property may require a Temporary Use Permit from the Planning Division.

An application must be reviewed and be approved by various City departments, including the Fire and Police Departments, before a permit can be issued. A Special Event Permit application that does not allow the administrative time required to process is subject to review by staff. An approval or denial recommendation by staff is made based on the complexity of the event and will be the final decision. Submission of application does not guarantee approval.

Submissions can be made in person, e-mail, or fax. E-mail and in-person submissions are preferred.
