Smoke Detector & Carbon Monoxide Self-Certification

(This certification is to be filled out by the permittee)

Project Address: _____

Permit Number: _____

Property Owner: _____

Licensed Contractor: _____ Lic #: _____

The State of California now requires that smoke and carbon monoxide detectors must be installed in all residential buildings California Residential Code (CRC) Section R314.1, CRC R315.2 states in part that existing dwellings be “retrofitted with smoke detectors and carbon monoxide detectors. CRC Section R314.3, CRC R315.3 defines required locations.

Both boxes below must be checked:

- Carbon Monoxide Alarm: On the ceiling or wall outside of each separate sleeping area in the immediate vicinity of bedrooms or in each hallway outside of the rooms, and each level of the dwelling. Detectors are also required in bedrooms with gas fired appliances.
- Smoke Alarms: Installed in each room used for sleeping purposes, outside each sleeping area, and on each level of the dwelling unit. Retrofitted detectors may be battery operated for buildings where no alterations are performed on the interior. Multiple-purpose alarms (carbon monoxide and smoke alarms) shall comply with all applicable standards and must be approved by the State Fire Marshall. The devices must be installed per manufacturer’s specifications.

I, the undersigned, hereby certify that I am the permittee of the project. I further certify that smoke alarms and carbon monoxide alarms are present and tested to be functional in all the following locations:

SMOKE DETECTORS on ceiling or wall or other location as specified by the manufacturer:

- Outside of each separate sleeping area in the immediate vicinity of bedrooms.
- In each room used for sleeping purposes.

CARBON MONOXIDE ALARMS on ceiling, wall or other location as specified by the manufacturer:

- Outside of each separate sleeping area in the immediate vicinity of bedrooms.
- In each story including any habitable basement.
NOTE: In dwellings or dwelling units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.
- For R-1 Occupancies only - sleeping units with permanently installed fuel burning appliances.

I, the undersigned, acting the contractor responsible for the above referenced work, certify the presence of detectors and alarms as indicated above.

Signature: _____ Date: _____

NOTE: This self-certification is only used for projects to the exterior of the structure where access to the interior of the dwelling by the City of Pomona Building Inspector is not achieved during the course of construction.
