**PROJECT SIGNS:**

Prior to start of construction, Contractor shall fabricate and install project specific sign(s) at a location(s) selected by the City Engineer or Representative thereof. See chart below for project information.

The project signs shall conform to the detail above. The poles, footings, mountings and other structural elements shall conform to the applicable details in Caltrans Standard Plans RS-1, RS-2 and RS-3.

Contractor shall modify said signs as instructed by the City Engineer.

The Project Information Signs shall be installed within one week following the Conditional Notice to Proceed, unless otherwise approved by the City Engineer.

Following completion of construction, Contractor shall remove and dispose of said signs and make any necessary repairs to sidewalk, roadway or other improvement damaged by the installation of the signs.

Note that Contractor shall verify sign layout with City Engineer or his representative before having signs fabricated
