RE: Notice of Availability for the Request for Statements of Qualifications for the City's CIP Project Reservoir - 5C, Project No. 575-93153

Dear Ladies and Gentlemen:

This notice announces the availability of the Request for Statements of Qualifications for the City's CIP Project Reservoir - 5C, Project No. 575-93153. This notice is provided pursuant to noticing requirements found City Code Section 2-1006 (d).

Introduction and Background Information

The City of Pomona's Reservoir 5C is a 10 million gallon reservoir and is located at 474 Vinton Avenue, Pomona, California. The concrete tank's outside dimensions are 307 feet long by 207 feet wide, with an approximately 23 feet high interior wall height. The tank is comprised of four (4) interconnected chambers that have an interior baffle wall near the mid-point of the chambers. The exterior walls were designed to be approximately three (3) feet thick and the inner chamber and baffle walls were designed to be two (2) feet thick. The tank was constructed in 2003, but leak testing revealed the presence of numerous concrete cracks. Attempts to seal the cracks delayed placing Reservoir 5C in service until early 2004. Tank leakage was observed on the exterior walls once the tank was filled and put into operation.

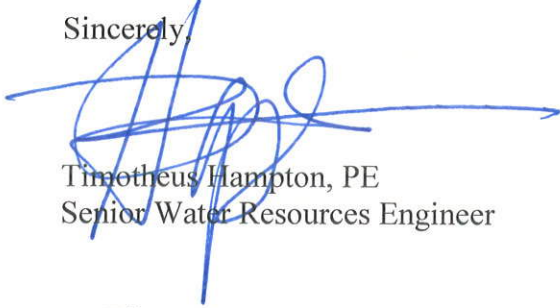

The City of Pomona is seeking a Design-Build strategy to rehabilitate Reservoir 5C that prevents moisture from continuing to permeate through the cracks in the walls of the tank and cause progressive deterioration of the reinforcement steel and decrease the structural integrity and life span of the reservoir. The City's consultant has recommended that cracks over one sixteenth (1/16") of an inch be filled and that a multi component polyurethane liner be applied to the interior walls and floor of the tank as the preferred rehabilitation method the City may consider other alternatives that may be proposed that provide the best value that achieve the objectives as described.

Procurement Schedule

| <u>Date</u> | <u>Activity</u> |
|------------------------|---|
| April 6, 2015 | RFQ Issuance |
| April 22, 2015 (10 am) | Pre-SOQ Meeting |
| April 29, 2015 | Due date for submittal of questions regarding the RFQ and draft Agreement Documents |
| May 6, 2015 (4 pm) | SOQ submission deadline |

Thank you very much for your interest. Please feel free to contact me at the City of Pomona Department of Public Works, Water/Wastewater Division at (909) 802-7420 with any questions.

Sincerely,

A handwritten signature in blue ink, appearing to be 'T. Hampton', with a long horizontal stroke extending to the right.
